THE BEST REMEDY FOR RHEUMATISM: HALL'S SERRAVALLO YELLOW DOCK AND IODIDE OF POTASS. 22-2m

THE CHARGE OF THE BRIGHT BRIGADE.

The philanthropic Governor of Massachusetts, having been informed that there is a dearth of that raw material known as the unmarried male, out in this direction, has determined to send us seven hundred well selected specimens of home production, to cheer the hearts and hearts of our many love-lorn bachelors. Bless you, Governor!—That would be a mere drop of water in the ocean. We believe there are at least seven thousand single young fellows in San Francisco who would pounce upon them as a bee pounces upon a flower, the moment they land, and so their fate would be, relatively, something like that of the famous Light Brigade at Balaklava, so handsomely immortalized by Tennyson—whom our "Ariel" has parodied in the following:

Many leagues, many leagues,
Many leagues onward,
Sailed the Seven Hundred.

Forward the bright brigade,
After them—who's afraid?
Right for the Golden Gate,
Steered the Seven Hundred.

Forward, you bright brigade,
In all your charms arrayed,
Some one has blundered—
There's not to act so shy,
On to the Golden Gate,
Daring the Seven Hundred!

Suited to right of them,
Suited to left of them,
Suited in front of them,
Suited and thundered:
Dumped on the wharf pell-mell,
O what a horrid fall!
Into the jaws of fate,
Into their lovers' arms,
Landed the Seven Hundred.

Flashed all their arms so bare,
Brown, black and golden hair,
Starting the long-haired clerics,
Charging an army, while
All the town wondered:
Plunged in the dust and smoke,
Right through the line they broke,
Broke and crashed and rolled,
Reeled from the charge and broke,
Every the sundered.
Then they rose off, but not
Quite the Seven Hundred.

Husbands to right of them,
Husbands to left of them,
Husbands behind them,
Now husbands and wondered:
Stormed at with words so fell,
Who shall their feelings tell?
There goes the steam-ship's bell—
Back from the jaws of fate,
Back from the Golden Gate,
All that was left of them,
Went the Seven Hundred.

When can their glory fade?
To the wild rush they made,
All the town wondered:
Honor the charge they made,
Honor the Bright Brigade,
Sweet the Seven Hundred!

—J. F. Mercury.

OUR BOYS ARE COMING HOME.

THANK God, the sky is clearing!
The clouds are hurrying past;
Thank God, the day is nearing!
The dawn is coming fast.
And when glad herald voices
Shall tell us Peace has come,
This thought shall once rejoice us:
"Our boys are coming home!"

Soon shall the voices of singing
Drown war's tremendous din;
Soon shall the joy-bells ringing
Bring peace and freedom in.
The jubilee bonfires burning,
Shall soon light up the dome,
And we, to each our youths,
Our boys are coming home.

The vacant fireless places
Have waited for them long;
The love-light lacks their faces,
The chorus waits their song:
A shadowy host has haunted
The long-deserted room;
But now our prayers are granted,
Our boys are coming home!

O mother, calmly waiting
For that beloved son!
O sister, proudly dating
The victories he has won!
O maiden, softly humming
Love-songs while you roam—
Joy, joy, the boys are coming,
Our boys are coming home!

And yet—oh, keenest sorrow!
They're coming, but not all;
Full many a dark to-morrow
Shall wear its sable pall;
For thousands who are sleeping
Beneath the purplured dome,
We wait for those who're sleeping,
Who never will come home!

O, sad heart, hush thy grieving;
Wait but a little while!
With hope and joy believing
Thy word and fear beguile.
Wait for the joyous meeting
Beyond the starry dome,
For there our boys are waiting
To bid us welcome home.

A TERRIBLE CONFESSION.—Daniel Andrews, Postmaster at Glenora, Missouri, was recently arrested for robbing a neighbor and committing suicide in prison. Before doing so he wrote a confession, which stated among other things, that he murdered a returned Californian, eight or ten years ago, for the purpose of securing his money, which amounted to about \$10,000; that he had the murdered man buried at his own expense, and that he had been attending the funeral, and giving him credit for charity to the dead. He also informs his friends that since his appointment as Postmaster he has robbed the mails in search of money in many instances, and that he never lost an opportunity to appropriate letters entrusted to him with the information that their contents were valuable. The most shocking statement is, that he had been the means of killing two of his own children, and that he had meditated the murder of his wife, procuring a gun and loading it for that purpose only a few days before the date of the confession.

THE LEGISLATURE.—The Call makes the political complexion as follows: Regular Union, 51; Independent Union, 14; Democrats, 18. Regular Union majority over all.

22. Senate—Regular Union, 20; Independent Union, 6; Democrats, 8. Regular Union majority on joint ballot, 84. Last year the Democrats had five in the Senate and 9 in the house. Democratic gain in both branches, 12—3 in the Senate and 9 in the Assembly.

THE MINER OF '49.

of '49 is a peculiar individual, differing in many respects from the settler of later years. Enter his cabin, and there are always the indelible evidences of a miserable life of single male blessedness. The blanket-spread cot; the little rough table, with its scanty array of crockery; the old battered stove or fire-place; the inevitable sack of flour, half-sack of potatoes, and chunk of pork; the old clothes, and old boots, and a few books of a miner's worldly possessions. A little patch of cultivated ground, enclosed by old sluice lumber is sometimes an accompaniment, as well as a dog and a few fowls. The inhabitant of this cabin is often in appearance rough, gray, and grizzly. He came out sixteen years ago, and his residence has always been on the very gulch where we now find him. Probably he rejoices in the euphonic name of Jackson Gulch, short Tail Bar, or Mad Mule Canon. He does his trading at a store at Diggarburg. Fortified with a few dollars in dust, accumulated by the hardest toil during the week, there he hawks himself on Sunday, and purchases—what? A few pounds of flour, a little tea, bacon, coffee and sugar, and the balance goes for whisky. Yes, he does. True, he didn't mean to spend it all thus; but he gets stuck game after game, by his cronies, so that when he leaves for home with his supply of provisions, he is not always a perfect specimen of "compos mentis." He can tell where the rich spots have been in the rivers, bars, gulches and flats; but that was in the glorious times of yore. He can't tell where there are any rich spots now. He is certain there is a rich quartz ledge in the mountain yonder, and could he get water on the flat there, he is sure it would pay good wages. Excess of fortune spoiled him in '49. Economy to him is a myth, and cheerfully he entertains half-a-dozen friends, though his magazine of provisions, as well as money, he is in the last stage of exhaustion. His supper cooked and eaten, he smokes his pipe and thinks of home—that is, the home of sixteen years ago. To him there is no realization that time has taken such a flight over his head, in reality he has no home. Mentally, he sees the faces of his youth, fresh and blooming, but many of those features are old and withered now. Some have long since turned to dust. Were he even to return to the Eastern shores, he would find himself a stranger in a strange land. He thinks he'll go back "some time or other." Fortune sometimes favors him a trifle more than usual, he may make a trip to the Bay. He stops at the What Cheer House. He may be seen there by hundreds. Poor fellow! He came here to enjoy himself; but the fact is he doesn't know how. The novelty of the city wears off in a day or two. Without occupation, his routine of life broken, he becomes the victim of a disease for which the French only could invent a name, "ennui." At night, he can go to the theatre; but by day sits in rows in the halls of the hotels, crowds the entrance, and sometimes blacks the street. His face is an expression of wild bewilderment, and intense weariness. Unaccustomed to the hurry and bustle of the city, he collides frequently with the denizens of the metropolis. The spruce, fashionably dressed, frizzle-headed clerks, who flit by, excite in him feelings of contempt and indignation. The honest miner is down on his knees, mentally he calls them squirts. The swarms of youthful females on the street, astonish, delight and tantalize him. But the danger of the auferious soil often leaves the city with a knowledge that the world has gone far ahead of him during his lonely residence in the mountains.

—Golden Era.

PRELUDING.

SEARLING.—The factions local of an

ava paper gets off the following good

thing:

"The other night while we lay musing;
and our weary brain confounding, o'er the
topics of the day, suddenly we heard a rattling,
as of serried hosts a-battling, as they mingled
in the fray. 'What is that?' we cried
upstarting, and into the darkness darting,
'What?' we ran against the door. 'Oh, 'tis
nothing,' Edward grumbled, as o'er a huge
arm chair we stumbled. 'It's a bug, and
nothing more.' Then said we, our anger
tingling, (for we thought it so surprising that
bug should thus offend,) 'Do you think,
a small insect sir, thus would all the air infect
sir? No, 'tis not a bug, my friend.' Now,
becoming sorely frightened, round our waist
our pants we tightened, and put on our coat
and hat—when, into the darkness peering,
saw with trembling and much fearing,
the glaring eyes of Thomas Cat, Esq. With
astonishment and wonder we gazed upon this
son of thunder, as he sat upon the floor—
when a resolution taking, and a rapid move-
ment making, lo! we opened wide the door.
'Now clear out!' we hoarsely shouted, as
presence from our floor! Then with air and
men majestic, this dear creature, called do-
mestic, made his exit without growling,
neither was

SATURDAY, OCT. 14, 1865.

SENATOR CONGRESS.—California, will leave San Francisco on the 3d of November for Washington—going by Panama. After all the barking of the little dogs at his heels, during the past year, we'll wager a new hat the next Legislature is composed pretty nearly as he wished. The friends of Conness will determine who succeeds McDougall. Mark that.—Humboldt Register.

JOHN CONNESS.—Mr. Register, has little more influence in the next Legislature than McDougall. No public man ever had so good opportunities, and no man ever made so poor a use of them. We say this more in sorrow than in a spirit of boasting.—[Appl.]

Don't be too sure, Mr. Appel, that John Conness is so thoroughly played out as you would have him seem to be. It is well enough for you, while you are in such a sorrowful mood, to shed all the crocodile tears you have to spare. After the Legislature meets, and the next U. S. Senator from this State receives his commission, you will feel decidedly worse, in fact, we shall expect to hear that you have clothed yourself in sackcloth and ashes. There will be much weeping and wailing and gnashing of teeth in the Long-hair camp, about that time. Mark that.

GEORGIA COSTUME.—Occasia Owen, one of the Golden Era's regular correspondents, recently attended a "Re-union" at Lincoln Hall, San Francisco, and after giving the affair a lengthy notice, winds up as follows:

Now I shall honor a few of the gentlemen with the most minute mention of the dress distinguishing each.

Mr. B.—"He wore the Sup't of Pub. Instruction, wore a simple watch key attached in the usual way."

Dr. A.—"A (Ayer) was dressed in gold spectacles."

Mr. H.—"H (Holbrook) had a pair of whiskers."

What beats the Georgia costume! What a nice appearance the State Sup't. of Public Instruction must have made in a public hall room, attired in "a simple watch key!" Dr. Ayer was "dressed in gold spectacles," a very becoming costume, no doubt. Another gentleman "had a pair of whiskers." What a magnificent dress for a ball room! He must have created a great sensation among the fair sex who were present at the ball. Wonder if he is not the man alluded to in the song, where "The Captain with his whiskers," &c.

INFORMATION WANTED.—The following letter, dated Montgomery, Ala. Aug. 11th, 1865, was received a few days ago. We have been unable to find that any such man as Wm. M. Anderson ever lived in this city, and publish the letter that his former residence may be ascertained:

Mr. Editor: You will greatly oblige me by finding out through your paper the whereabouts of Wm. M. Anderson. He is or was a merchant before the war, and was in North Carolina when the war commenced, and left there about 18 months ago for Maryville, Cal. His wife who is a sister of mine, has never heard a word from him since his departure, and has suffered a good deal of painful anxiety in consequence thereof. Please exert yourself to give me some information in regard to him, and you will confer a favor that will never be forgotten. If you find out anything write to me or telegraph immediately. Excuse me for taking this liberty, but I have no acquaintances in Maryville, and I fear that Mr. Anderson is dead by his long absence. Yours with much respect.

[Appl.] ALONZO VAUGHAN.

We can give the Appeal the information desired. Mr. Anderson, generally known as "Cornel Anderson," the person alluded to, was formerly a partner of Mr. Hughes at Meadow Valley. They sold out some years since, and Mr. Anderson went to North Carolina. Last year he returned to this country, and, we believe, opened a saloon at Carrisbo, on the North Fork of Feather river, where, on or about the 28th of March last, after a short illness, he died.

SENATOR PRATT.—A correspondent of the Appeal, in writing from Downville, says:

A VENERABLE SENATOR.—Here I had pointed out to me the venerable Judge Pratt, Senator elect from Sierra County. At the age of sixty-five he stands as erect as a young man does at thirty-three. Indeed a stranger would be apt to mistake him for a much younger man than he is, were he not told his true age. He has been three times married and is the father of seventeen children, twelve boys and five girls. One of his sons, Judge Pratt of San Francisco, has obtained considerable eminence as a lawyer, and was for some time Judge of one of the District Courts in that city. One of his daughters married to Count Fresco of Austria, and another one is the wife of Gen. Butler, of the Federal army. These are facts not generally known, notwithstanding Senator Pratt has been the recipient of numerous notices from the press.

Judge Pratt must have grown old very fast since we last saw him. Lord gracious! Now his family has increased within a few years! No wonder he has grown old.

HARTLEY.—The San Francisco Examiner, in denying that Judge Hartley is opposed to the settlers, says:

As an evidence that he has never done anything against the settlers we would state that Judge McKune, of Sacramento, who was elected by the settler vote District Judge, and who has been identified with settlers since 1849, and who has been acting with the Republicans for the past four or five years, is in favor of Hartley's election. McKune has known Hartley for fifteen years.

The Union State Convention of Nevada, assembled, on the twenty-sixth ballot, David B. Ashley, formerly State Treasurer of California, for Congress.

VOTERS.—Watch out for spurious tickets on the day of the Judicial Election. Some of the candidates for Justices of the Peace may undertake to "play" you! Remember that eternal vigilance is the price of liberty! Be on your guard! Watch out for bootlegs! England threatens your native land! Be true! Be true! Stand firm for your rights, as free American citizens! Place none but the faithful on guard! Vote early! The Penitentiary is around! Vote often! Preserve the purity of the ballot box! Watch out for American citizens of African descent! Challenge every vote! Enforce the Monroe doctrine! Don't sell your vote unless you get a good price! Your liberties are endangered! Don't fear a garthquake! The Judiciary must be kept free from the contaminating influences of the ungodly politicians of this State! Don't stay away from the polls! Make way for liberty, and vote the straight ticket! Be calm! France means mischief and Germany can't be trusted! Don't get so drunk before breakfast that you can't walk to the polls! Remember Garibaldi! Keep a strict watch upon the officers of the election; don't let them defraud the people! San Brannan votes your ticket! Make the candidates stand tight! Liberty and justice demand your support! See that the name of Andrew Jackson is upon your ticket! Be faithful to your trust! Don't be deceived by any trick of the enemy! Be sure and vote! Our country is in danger. No compromise with Maximilian! Be true! Be true! Survey the boundaries of each election precinct. The enemy is unscrupulous! Be sure and vote! The party expects every man to do his duty! Don't trade, unless you make a good bargain! Place not your trust in politicians, but vote the straight ticket! These are the times that try the depths of a candidate's pocket! Do well your duty! Remember Alcatraz! Be true! Be true! Stand not upon the order of voting, but vote! The enemy will try to deceive you! Don't believe anything any one tells you on the day of election, but vote, and all will be well!

The following is the simon-pure straight ticket:

For Supreme Judge,
H. W. SARTLEYSON.
For County Judge,
L. T. HOCHENGRENES.
Vote the straight ticket.

TAX-PAYERS COMPLAINING.—Some of the tax-payers in Lassen county are grumbling about the taxes in that county. In a letter published in the Sage Brush, signed "Tax Payer," we find the following:

"There is no question of the fact that the taxes in our (Lassen) county, are more than the people can or ought to pay, and if there is a possibility of avoiding it, they are not going to stand the present high and burdensome tax imposed upon them. But after examining the records of the Board of Supervisors, I am satisfied that under the present system of management, it would be ruinous to the county to reduce the amount of revenue. Already the 'Shylocks' have depreciated the price of County warrants to sixty cents on the dollar which virtually compels the paying of two prices performed for the County."

It seems that the Supervisors of Lassen have made an order requiring the County Assessor to make what is called a subsequent assessment, and have authorized him to assess all of the hay, grain, &c., raised by the farmers of Lassen during the present year. Some of the tax-payers think the assessment illegal and unjust, and hence their complaints. Lassen County has been organized almost eighteen months. Their county debt is as large as that of Plumas. The tax levied for the present year is \$2.50 on each \$100 worth of taxable property, while this county it is \$2.55 on each \$100. Script in Plumas is worth ninety-five cents, and Lassen county script, as we see by the above paragraph, is worth but sixty cents on the dollar. The first payment, due this county from Lassen, of \$1,000, is payable on the 1st of January, 1865. We presume that the Supervisors of that county will make the necessary arrangement to meet the demand of this county, when made.

HORSE SENSE.—The California Stage Company's horses at Yreka, having become so accustomed to stopping at the Post Office, had to be whipped up to go by when mail connection ceased.—Ex.

We wish certain of our exchanges could be "whipped up" and made to "go by" some of the post offices between this place and—Liverpool. They have "become so accustomed to stopping" that we are afraid it would be a very hard matter to break them of it.

GEN. WRIGHT'S BODY FOUND.—On Friday, Sept. 29th, the body of a man, with both arms gone, washed ashore at Shelter Cove, Mendocino county. It was identified by several who had known the brave old man while living, as the body of Gen. George Wright, U. S. A. The corpse was buried at Shelter Cove, but will, in all probability be exhumed for a military funeral.

PLAIN TALK.—Gen. B. F. Chestnut, of the Rebel army, was among the latest of the pardon-seekers at Washington. In presenting his case to the President, he said:

"You know me, Mr. President—who I am and what I have done. I am sorry; and if you will pardon me, I will be a good citizen henceforward. And if there is any more fighting to be done, count me in whenever I may be needed."

PREJUDICED.—The Virginia Union, speculating on the late earthquake at the Bay, remarks:

We hope this earthquake has done some good by diverting the attention of capitalists from San Francisco to the more safe and profitable interior as a field for the investment of their surplus cash. If it has not, then we say, shake them up again.

THE PRESCRIPTION of "to be well shaken before taken" was probably intended for San Francisco. It has been well shaken; now the question is, when will it be taken?

LETTER FROM SAN FRANCISCO.

SAN FRANCISCO, Oct. 9th, 1865.
EDITOR UNION:—A sojourn of two weeks in this city of man-traps and mud-bills, convinces me that, like the serpent of Moses that swallowed the asp, the city of San Francisco is gradually, but surely, swallowing—in a business point of view—the balance of California; and in a few years, unless a portion of the surplus capital that is fast accumulating here, can be induced to seek an investment in the interior, and assist in developing the vast mineral deposits that lie hidden on our mountains which only await the well directed exertions of capital and labor to bring it forth, San Francisco will present the spectacle of an overgrown city, with no country to sustain it,—a little without a tail. Pretty much the same, a just price in contemplating the wonderful growth and present prosperity of this most wonderful city,—the commercial metropolis of the Pacific Coast, and I can well hope that it may continue. But it must be apparent to every person who is in the least conversant with the laws of trade, that the city cannot prosper for any length of time, unless the country from which it derives its trade and commerce in the State to live in,—the very little of it finds its way into the interior. There seems to be a lack of confidence in anything outside of San Francisco. I hear men every day remarking that San Francisco is the only place where you can live in,—the only place where you can get a good salary, and the assurance that you will ever get it back. This all may be true to a certain extent, yet, nevertheless, it is this same worthless interior that has built up San Francisco, and made her the great and wealthy city that she is, and it would be nothing but justice for her to lend a helping hand for the purpose of aiding legitimate mining operations that cannot be undertaken without the aid of capital. In years gone by, when the precious metals were mostly found in surface diggings, no capital was required. But our system of mining has entirely changed,—the surface diggings have, in a measure, "petered," and it now requires large outlays of money to carry on successfully our mining enterprises. The many failures in Washoe, and the wild speculations in California mines, the "burnt child dreads the fire," and will just here venture to say that the interior of the State is the only place where you can get a good salary, and the assurance that you will ever get it back. This all may be true to a certain extent, yet, nevertheless, it is this same worthless interior that has built up San Francisco, and made her the great and wealthy city that she is, and it would be nothing but justice for her to lend a helping hand for the purpose of aiding legitimate mining operations that cannot be undertaken without the aid of capital. In years gone by, when the precious metals were mostly found in surface diggings, no capital was required. LOCAL ITEMS.

GONE BELOW.—A number of our merchants have gone to San Francisco to purchase their Fall stocks of goods.

MISLAIN.—The interesting letter of "T." our Nelson Point correspondent, has been mislaid. Please write us again.

INCREASE.—Owing to the absence of the Federal Collector we are unable to publish the list of incomes in this week's issue.

STUCK.—A large pine tree, near the residence of J. C. Church, Esq., in this valley, was struck by lightning on Sunday last, and considerably shattered.

SOLD.—Mr. Geo. Martin sold his farm, in this valley, a few days since, to O. Madden, formerly of this place, at present a resident of Virginia City. Price paid, \$4,500.00.

TAXES.—Tax payers should read the Collector's notice, published in another column, and be prepared to pay their taxes when he visits their locality. By doing so, they will save themselves considerable unnecessary trouble and expense.

RETURNS.—The Board of Supervisors will meet at the Clerk's office, on the first Monday after the Judicial Election, to canvass the votes. Officers of the election should send in their returns on or before that day.

NO COURT.—The District Court of Lassen county adjourned on Friday, (yesterday) and Judge Sexton left Siskiyou via the Humboldt road for Oroville. Therefore no term of the Dist. Court will be held in this county until next May. A long time between terms, that, for litigants to wait.

A HINT.—We are credibly informed that money—such as U. S. gold or silver coin—makes a decidedly pleasant "jingle" in an editor's pocket; and wishing to test the truth of the statement, we would respectfully invite all persons who are owing us printing bills to "call and settle" as soon as convenient. On all bills contracted over one year ago, and remaining unpaid at this date, we will make a deduction of one per cent. if paid within the next month. Who takes the hint?

THE JAIL.—The County Jail has been covered with a new tin roof during the past week. Our County Jail is a useless piece of property. Cause why:—The citizens of Plumas are such a law abiding set of people, that to have a jail for their especial benefit is entirely unnecessary. It is well enough, however, to have a good jail, as Plumas is getting some notoriety for her gold and copper mines, and some of the lower county folks may find their way up here some time during the next three or seven years; and in that event, as a matter of course, a county jail would be a very necessary institution.

MEANNESS.—Mr. Fred. King, of Mohawk Valley, purchased a threshing machine in this valley a few days since, and while on his way home with the machine, in traveling over a rough piece of the road near Mr. Martin's ranch, the tongue of the wagon broke. Upon examining the break, he discovered that the tongue had been sawed more than two-thirds off. Had Mr. King attempted to drive down the grade beyond Long Valley without discovering the weak spot in the tongue, it is more than probable the horses would have been thrown from the grade and killed, and the machine ruined. It was very fortunate that the break occurred where it did.

FLOUR AND GRAIN.—"A Consumer" sends us the following: "Why is it, that when there is more than grain enough in the hands of the farmers in this county to supply our market with flour, that flour can be bought in the Sacramento Valley, and after paying 2 1/2 cts per pound freight, it can be sold at the same, or a less price, than the flour made in this county? Our farmers are complaining because they cannot sell their grain; and yet nearly the whole supply of flour for this county is bought in the lower valleys. Why is it?" "A Consumer" an impatient reply, so long as we can get a "sack of flour on tick," we don't care. Perhaps some of our merchants or farmers will answer your question satisfactorily.

DELINQUENT TAXES.—The total amount of delinquent taxes returned to the District Attorney, for the year 1864, was \$6,547.40, of which has been collected up to the present time, the sum of \$4,036.21, leaving a balance unpaid of \$2,411.19. Of that amount there is about \$800 which it is impossible to collect, because of the uncertain description of the property assessed; and on personal property, the property and owners of which have left the county. Deducting that amount, and it leaves the delinquent tax uncollected for that year, at only \$1,600; which is the smallest amount of delinquent taxes remaining uncollected for any year since 1858. A large amount of the tax yet unpaid will be collected during the present season.

EAST BRANCH.—The Duncker Hill Company have finished cleaning up. Their claims paid very well. Mr. Mori recently sold his claim (1-6) in the above named claims to C. Gale. Culp & Co., of Indian Hill, have just commenced cleaning up. Miller & Co., on Taylor Bar, are taking out good pay, so are Juan & Co., and the Pea Soup Company. A company, recently organized, have commenced a pretty "big job" on Rick Bar. They intend running a large cut the entire length of the bar, wash all the dirt they take out of the cut, and then turn the river and work the bed of the stream. They will use water-power derricks for hoisting purposes, &c. The company have several years' work before them, and we hope each one of them may realize a fortune out of the operation. If they can find a few pieces of "new ground" that will pay as well as some claims on the bar paid in '51 and '2, they are bound to make expenses at least. In fruit raising, our informant says Rick Bar can double discount the whole county. Peaches were so plenty this year that it was a hard matter to give them away after they were picked. He also says that Mr. Irwin has raised over a ton of grapes in his garden this year, and that he has a large number of young vines that will bear next year; and if the season is good he presumes enough grapes will be raised on Rick Bar to supply the whole county. The citizens on the East Branch are feeling "mighty good" over the prospect of having a wagon road built down the North Fork to the Sacramento Valley. We understand they are contemplating building a trail over the route near Spring. If they do so, a wagon road will soon follow.

THE CONTESTED ELECTION CASE.—It is currently reported that the contested election case of Clark vs. Yeates, for the Sheriff's office, which was dismissed some two weeks since, by order of Plaintiff's Attorneys, will be commenced again in a short time. It is also reported that a subscription paper has been circulated for the purpose of raising funds to carry on the suit. One merchant in Taylorville is said to have expressed himself as willing to expend \$2,000 on the contest. Going to law for the office of Sheriff of Plumas, will in all probability prove to be a very poor paying investment to all excepting the lawyers.

GROCERIES.—It is reported that certain kinds of groceries are selling at higher prices at wholesale, in San Francisco, than some of our merchants ask for them in this county. Now is the time to buy your groceries for winter. Call at Kaulback's in Quincy, or Cunningham & Holt-house's in Taylorville, and see if we are not telling the truth.

BE IN EARNEST.

Be in earnest! God who formed thee,
And with might and honor armed thee,
Ne'er designed that thou should'st squander
Life in vanity, or squander
Childlike, after bursting bubbles.
Made to buffet stormy troubles—
Made to breast the stormy billow—
Made to battle life's sternest—
Be in earnest.

Be in earnest! What thou doest,
What thou planest or puruest,
Plan, pursue and do with spirit,
Never care, though thou inherit
Glory dimmer than thy brother's—
Power weaker than another's—
Use thy power—use it rightly
And in honor, not in prize lightly:
And whether the power thou turnest,
Be in earnest.

Be in earnest in thy feelings!
If to sorrow's wept appeals
Thou impulsively respondest—
If thou cherishest the fondest—
If in friendship thou confidest—
Or if folly thou deridest—
If thou battle with aggression—
If thou struggle with oppression—
If with Patriot's flame thou burnest—
Be in earnest!

THE REBEL GENERAL CHEATHAM.—The following is the application of General Cheatham for pardon. It is mainly and soldier-like:

You know me, Mr. President—who I am and what I have done. I am sorry; and if you will pardon me, I will be a good citizen henceforward. And if there is any more fighting to be done, count me in whenever I may be needed.

A TEACHER in a contraband school asked a young darkey what a certain letter of the alphabet was. The darkey looked at it for a moment, and said: "I know dat well by sight, but am bressed if I can call it by name." He was told he could take a back seat.

FURTHER PHRASES.—There is an advertisement in the Montana Post for the Academy of the Holy Family for young ladies. St. Ignace Mission, Montana. It ends as follows: "For further information address Rev. Mother Mary (of the infant Jesus), Superior, thirty-six miles north of Helena."

POORER WIFE.—In Michigan, a young wife ran away from her old husband, taking \$500 of his money. She found a lover and bought him a suit of fine clothes, which she afterwards took and ran off from him. At last accounts the two men were in company condoling and looking for her.

OFFICIAL FEES.—The tax-payers of every county in the State are in favor of a reduction of salaries to a reasonable compensation. Let us have salaries reduced to a scale that men will not sell their principles for a fat office Union Record.

DEMOCRAT.—Webster, in his great Dictionary, thus defines the word Democrat: "Democrat—One who adheres to a Government by the People, or favors the extension of the Right of Suffrage to all classes of men."

ABLE-BODIED NEGROES are said to be selling in Texas at twelve and a-half cents a dozen.

Marysville, July 12th, 1893.

The times we live in are passing through, demand strong, substantial and experienced underwriters of the conservative and high-toned school—companies of brains as well as capital, and a thorough knowledge of and an intimate acquaintance with the business as well as the people—companies that are uniform in their rules, firm in their rates, and prompt in the payment of losses.

PHENIX OF HARTFORD, whose past bright record and present fair fame attest the legitimacy of its claim to preference and favor.

The old PHENIX OF HARTFORD has adjusted and paid Two Hundred and Eleven Losses in California, amounting in the aggregate to nearly \$200,000. Payments being made on an average of seven days after fires occurred.

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all the diseases that can be cured by medicine, few are so common as those that arise from an impure state of the blood. It is a fact that the blood is the life of the body, and if it is impure, the body will be diseased. The blood is the life of the body, and if it is impure, the body will be diseased.

The blood is the life of the body, and if it is impure, the body will be diseased. The blood is the life of the body, and if it is impure, the body will be diseased.

HAPPINESS OR MISERY.

THAT IS THE QUESTION.

THE PROPRIETORS OF THE "PACIFIC MUSEUM OF ANATOMY AND SCIENCE" determined, regardless of expense, to issue FREE of cost to the community a Physician of most interesting and instructive LECTURES, on M. RHIAQUE and its disquisitions: Nervous Debility, Premature Decline of Manhood, Indigestion, Chronic Depression, Loss of Energy and Vital Power, the Great Social Evil, and those maladies that result from youthful follies, excesses of intemperance, or ignorance of Physiology and Nature's Laws.

These invaluable Lectures have been the means of enlightening and saving thousands, and will be forwarded FREE of cost, by express, to all who send in postage stamps, by addressing: Secretary Pacific Museum of Anatomy and Science, "The Street San Francisco."

Medical Advice.—Dr. Wm. K. Doherty's Medical and Surgical Institute is becoming a *blue print* to the welfare of our State and health of our citizens, and its rapidly spreading reputation, although it may excite surprise, is but the signal of success, and follows as the natural effect of such a cause. We are personally acquainted with gentlemen who have suffered for years under chronic diseases, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who in an incredibly short space of time has given them entire relief. It is gratifying to announce this fact, because the Doctor is a gentleman who seeks, not by flattery of others, to establish his reputation or to rear the superstructure of his own upon the ruins of another's fame. The Doctor conducts his Institute in such a manner that must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge until he effects a cure. This is the only way, because he feels the confidence which long experience has given, and he doubts the consolation which appertains to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do harm, as for consultation he asks no fee; nor does he insist on payment for his advice until the patient places himself under his care. The Doctor's office is located in the Pacific Mail Steamship office, opposite the Pacific Mail Steamship office, 121 Nassau Street, New York.

Subscribed and sworn to before me, this 21st day of June, 1894. A. S. GOULD, Notary Public.

SEMINAL WEAKNESS.—A sworn to Certificate of a most remarkable cure of Spermatorrhoea.

A desire to benefit humanity, and a feeling of gratitude to Dr. Wm. K. Doherty, whose Institute I have made this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhoea," or "Seminal weakness," the result of which, I tell you, has been a constant and terrible trouble or inconvenience in that year, however, I had Seminal weakness to a alarming extent, and was soon followed by the most alarming symptoms, as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind too, was affected, and as an extent as to seriously impair my memory. My ideas were confused and spirits depressed. I was unable to do my work, and my health was ruined. From 1882 to the summer of 1893, I employed the very best medical talent I could find, but to no avail. I had spent several hundred dollars, but in no instance obtained more than temporary relief. I had contemplated there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I should call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty, at his office in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 3rd day of December last I placed myself under his care; in one week I found myself very much improved, and now, after five weeks treatment, I feel myself completely cured of all my troubles, and in the enjoyment of the best of health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself, JAMES JOHNSON.

Subscribed and sworn to before me, this 15th day of Jan, 1894. A. G. RANDALL, Notary Public.

TO FEMALES.—When a female is in trouble or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginities, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go to once to the celebrated female doctor, Dr. W. K. Doherty, at his Medical Institute, and consult him about their troubles and diseases. The Doctor is effecting more cures than any other Physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful suffering and premature death. All married ladies whose delicate health or other circumstances prevent an increase in their families, should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

TO CORRESPONDENTS.—Patients residing in any part of the State, however distant, who desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such in presence and to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of assuring that all letters are only opened and replied to by himself, and the latter as promptly as possible. If the case be fully and candidly described, a personal communication will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation—Free. Permanent cure guaranteed or no pay.

W. K. DOHERTY, M. D., San Francisco, California.
